DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1, 3-5, and 7-22 are allowed over the prior art of record.

Independent claim 1 recites an optical head comprising an indirect bandgap semiconductor laser with an asymmetric quantum well structure wherein the distinguishing element further comprises supplying a driving current to the laser to stabilize a broadband oscillation. Examiner asserts that the last limitation reciting "means for supplying a driving current for said semiconductor laser to stabilize broadband oscillation" is means plus function language and hereby interprets this claim to fall under the provisions of 35 U.S.C. 112, 6th paragraph. The portion of the specification supporting the claim language can be found in Figure 11, element 11, and also on page 28, line 1 through page 29, line 11 which describes the specific means for supplying the drive current to the semiconductor laser to stabilize broadband oscillation. Therefore, the claim is interpreted to cover the corresponding structure, material or acts described within the specification.

Claims 3-5 and 7-22 are allowed as being dependent on aforementioned independent claim 1.

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ADAM R. GIESY whose telephone number is (571)272-7555. The examiner can normally be reached on 8:00am- 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wayne R. Young can be reached on (571) 272-7582. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
